

Four Outstanding Chief Engineers

David Stacey- Fairfield Inn & Suites Elizabeth City, NC

David Stacey is a great asset to the Strand Development team. He works very well with all his associates, including guests, owners, and other employees. Throughout the recent renovations on his property, David has remained upbeat and very dependable.

William Wright- Hope Hotel & Richard C. Holbrooke Conference Center, Fairborn, OH

William was hired as a Chief Engineer. His job performance and customer relations were so outstanding that William acquired a second position and now works as Chief Engineer AND Executive Housekeeper at the Hope Hotel. William is highly skilled and dedicated and manages these two positions simultaneously very well.

Tim Dallas- Quality Inn Greenville, SC

Tim is a hardworking and dedicated employee. He has great customer relations skills. In addition to his work at the Quality Inn, Tim applies his skills at Hampton Inn Travelers Rest. He does a wonderful job fulfilling maintenance needs at both properties.

Brian Baker- Comfort Inn Morgantown, WV

Brian has shown consistent dedication by working through several management changes at his property. He maintains many areas of the property and completes all that is expected of him. He has shown valiant dedication and puts other's needs before his own.

Strand Development would like to thank these four team members for their hard work, excellent customer service, and dedication.
